Academic Projects and Research

Thesis: "Face Recognition System Using Deep Convolutional Neural Networks"

Supervisor: Rizoan Toufiq, Assistant Professor, Dept. of CSE, RUET

In this thesis, a modified deep learning neural network to learn face representation from a smaller dataset has been proposed and a substantial improvement in recognition has been achieved that can be used for real life applications.

Projects:

"Article-pad – A simple text editor"

- Basic text editor using java

"A Portfolio"

- Web based application project using HTML, CSS, JavaScript, PHP and MySQL

System Analysis:

"System Analysis of Bangladesh Sericulture Board"

- worked as a team to demonstrate the system's lacking and provide better solutions
